

Let us restore your timeless treasures.

Refinishing

Restoration Specialists Since 1919

This censer was badly in need of repair and was restored to its original condition.

Repair

We take pride in our work. Our team of skilled craftsmen will restore your precious articles as close to their original condition as possible. We ensure that all repairs are completed before any further restoration is taken place.

Polishing

Prior to the plating process, each piece will be hand buffed down to the base metal. It is then hand polished very meticulously by our skilled polishers who will remove as many pits, scratches, and other imperfections as possible. We take great care in handling your piece and ensure that only the best finish will be achieved.

Plating

We have an expert plating staff on hand, who will electrolytically clean each piece before plating, to remove any remaining buffing compound residue. Next, we thoroughly check the conductivity of your piece to ensure an even plating throughout the entire surface. We will then re-plate your piece according to your specifications. We specialize in 24k Gold and .999+ Silver plating, however, we also have the ability to plate in Copper, Brass, and Nickel.

The Process:

Owners of fine metalware have been sending their articles to us for more than three quarters of a century. Each piece is given the "best of care." Expert appraisal of the repair needed and necessary plating is carefully planned. Then, we meticulously repair the damaged areas and, if possible, replace any missing parts. Creative talent comes into play here in re-creating every detail, as close as possible, to the original design.

Next, the piece is intricately polished by our expert team. The restored article gleams with fresh beauty in this step of the craftsmanship. We take care to preserve any engraving or special finishes. Our plating staff then coat your piece according to your instructions. When the delicate assignment is complete, your cherished article once again shows its original luster and magnificence.
